COREPDF

Welcome to

COREPDF

Connect Infinite Possibilities,
Innovate PDF Experience

1. Work Anywhere

COREPDF supports synchronization across desktop, mobile, and web versions.
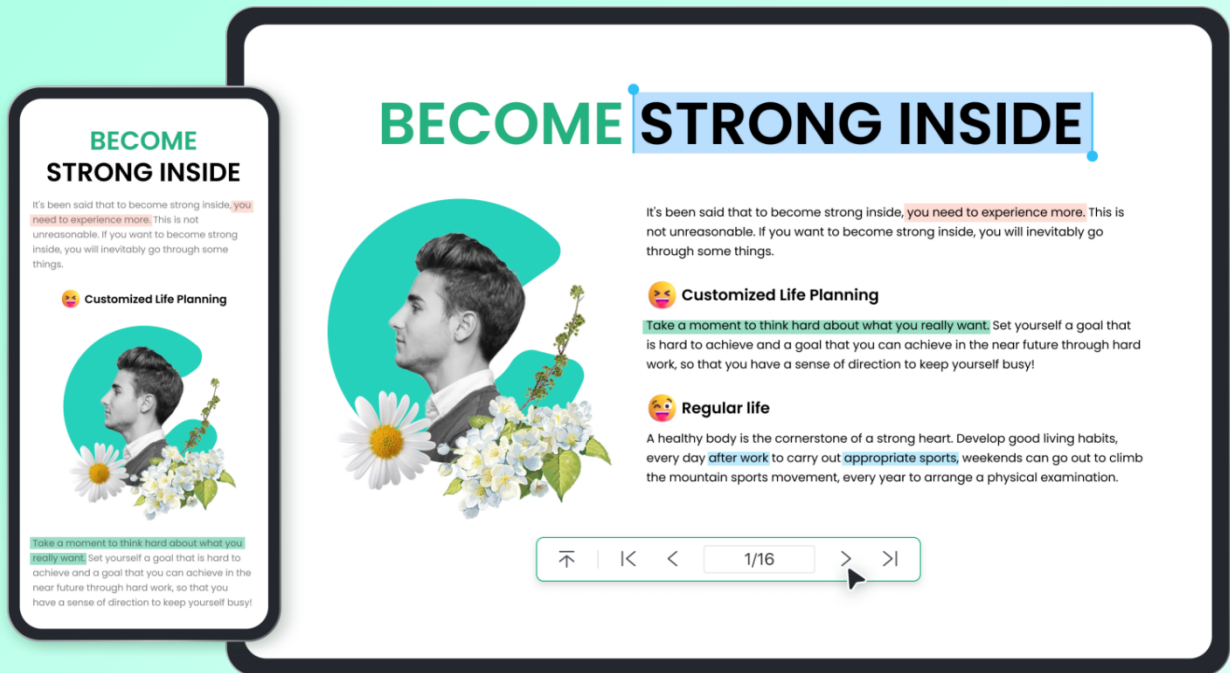

Desktop (Windows, macOS)

Powerful features for reading, editing, commenting, converting, and creating PDFs with ease.
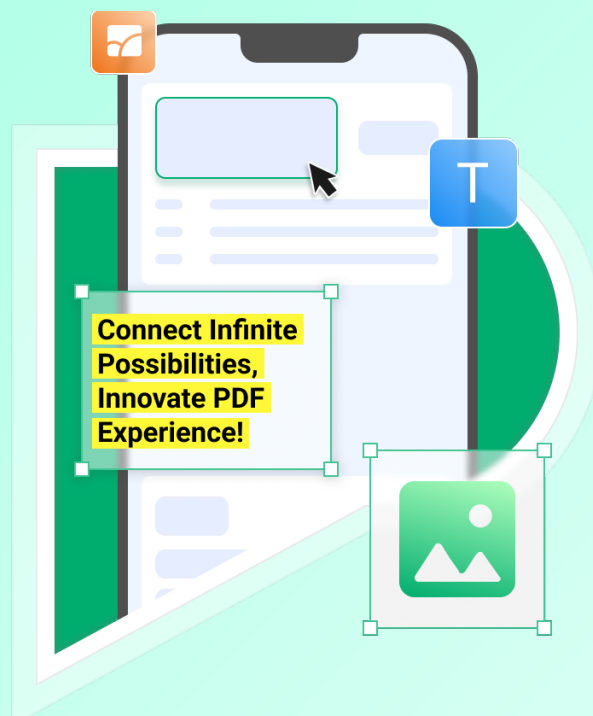

Mobile (Android, iOS)

Read, edit, and comment on PDFs anywhere with your mobile device.

Web

Sync files across all your devices and seamlessly share them with your team members.

2.Read, Edit PDFs Like Never Before

Page Navigation

Navigate directly to desired pages using the directory for efficient reading.

Text & Image Editing

Effortlessly add, remove, or edit PDF content along with font customization.

Rich Formatting & Style Adjustments

Craft visually stunning documents with a wide range of formatting tools, ensuring professionalism and readability.

3. Next-Level Annotations

Annotations

Add pencil line, underline, highlight, and strikethrough with this PDF editor for crystal-clear text emphasis.

Adding Text

Insert text boxes with customizable font styles, colors, and sizes to annotate PDF documents effectively.

4. Document Scanning – Transform Paper Files into Digital PDFs
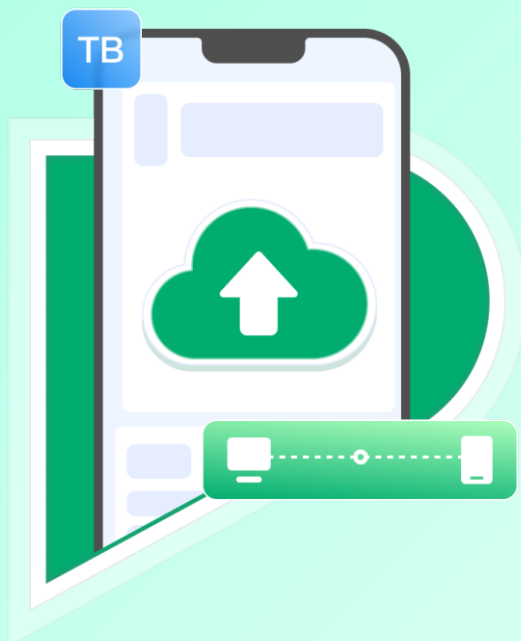

Scan Paper Files

Use your device's camera to scan physical documents, converting them into high-quality PDFs with ease.

Select Photos

Choose photos from your device to quickly create PDF files for easy sharing and storage.

5. Save Files to Cloud and Open Anywhere

Extract PDF

Create new PDFs with COREPDF by extracting pages from existing documents, with options to selectively combine them.

Delete PDF Pages

Delete unnecessary pages with pinpoint precision, individually or in batches, using this PDF editor.

Rotate PDF

Adjust the orientation of the PDF pages precisely by rotating the pages in a clockwise or anti-clockwise direction.
